PRACTICALITY IS ALWAYS IN STYLE.

DuPont™ Corian® solid surface has been the first choice of homeowners, designers and architects for years. Whether you choose it for its spice or its minimalism, it's what you can't see that makes it even more beautiful.

Flexible and Versatile.

DuPont™ Corian® can be thermoformed, carved, molded, textured and routed to conform to your imagination, in both horizontal and vertical applications.

Nonporous and Stain Resistant.

Spills do not permeate the surface and, with proper cleaning, Corian® does not promote the growth of mold and mildew.

Durable.

Tough and long lasting, so it stands up to heavy use. Superior UV performance; passes ANSI/ICPA SS-1-2001 test for color fastness.

Can Be Renewed.

Since the color runs all the way through, marks and scratches can be removed easily to restore DuPont™ Corian® to its original appearance.

Standards Compliant.

DuPont™ Corian® is NSF/ANSI Standard 51 Certified for food contact. It's also Class I (Class A) fire rated.

Easy to Keep Clean.

Seamless, integrated Corian® sinks eliminate the need for grout lines.

Heat Resistant.

Corian® solid surface is heat resistant, but the use of trivets or heat pads is recommended.

Warm and Inviting.

Select from a wide palette of colors that appeal to your personal style.

Trusted and Supported.

The original solid surface invented over 40 years ago by a company with a 200-year history of innovation — DuPont. And we back Corian® with a 10-year Limited Product Warranty.

Contributes to Sustainable Design.

In the finished installation, DuPont™ Corian® and its adhesives and sealants are low VOC and are nontoxic and nonallergenic to humans. DuPont™ Corian® is GREENGUARD® Indoor Air Quality Certified.
